10. Why remove clothes immediately from the dryer?

LAUNDRY BLUES

The case of the
missing necklace.

Answer Key

Directions: Answer the following questions and fill in the blanks while watching the video
“Laundry Blues: The case of the missing necklace.”

1. What is Tara missing?

Her Mother’s emerald necklace

2. Colored clothes when washed together can transfer color. What are examples of this in the video?

Dingy whites and Paula’s pink sock

3. To prevent shrinking a sweater, use cold water and a delicate cycle.

4. What’s the difference between chlorine bleach and oxygen bleach?

Chlorine bleach is toxic and must be diluted. Oxygen bleach can be added directly to the water.

5. Care labels give you information on how to wash and dry your clothes.

6. Pre-wash stain remover removes most stains, but not fingernail polish !

7. List two examples of white items in the wash:

t-shirts, white socks, underwear, towels, linens

8. List two examples of dark items in the wash:

Dark socks, underwear, shirts and jeans

9. What are examples of “delicates” and how should they be washed?

Delicates are machine-washable woolen clothing, sweaters, satins, and any luxurious fabrics. Delicates may be washed by hand. Delicates require a “delicate” cycle while washed in cold water. It is often best to hang delicates to dry. The heat of the dryer may ruin delicates.

10. Why remove clothes immediately from the dryer?

To prevent wrinkles and the need to iron.
