5. What are resources?
   Resources are the things that you have that you can use to get the things that you want or need.

6. What are the four resources identified in the video?
   1. Money
   2. Skills
   3. Time
   4. Knowledge

7. Why is it important to think about cost and quality when making a purchase?
   The most expensive product isn’t always the best one. You can check out product reviews, but usually something that is better quality is going to cost more than something cheap.

8. What four things should you keep in mind when shopping online?
   1. Be sure to count shipping into your final costs
   2. How are you going to pay for your purchase?
   3. Make sure the website is safe and secure by locating a small padlock image in the corner of your browser.
   4. You can’t touch it, test it, or try it on before you buy, so test it out at a store or try your friends’ stuff before buying.

9. Why is it important to keep your receipt?
   Keeping your receipts allows you to easily return or exchange your purchase within a given amount of time. Be aware of the store’s return policy, which is usually printed somewhere on the receipt.

10. Name four ways to evaluate your decision.
    1. Ask yourself if you are happy with your purchase.
    2. Ask yourself if your purchase does what you need it to do and if it does what you expected it to do.
    3. Wait for a period of time to see if you’d make the same choice.
    4. Ask yourself would you change anything next time.
