Measure the Vegetables!

Estimate the length of each vegetable. Then use a ruler to measure each vegetable in inches AND in centimeters.

April Asparagus:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________

Craven Corn:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________

Sammy Squash:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________

Carrie Carrot:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________

Buddy Broccoli:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________

Callie Cabbage:
Estimated length: _________
Length in inches: _________
Length in centimeters: _________
Measure the Vegetables!

Estimate the length of each vegetable. Then use a ruler to measure each vegetable in inches AND in centimeters.

April Asparagus:
Estimated length: ___________
Length in inches: \(\frac{21}{4}\)
Length in centimeters: \(5.6\)

Craven Corn:
Estimated length: \(\frac{3}{8}\)
Length in inches: \(9.2\)
Length in centimeters: ___________

Sammy Squash:
Estimated length: \(\frac{2}{3}\)
Length in inches: \(6.9\)
Length in centimeters: ___________

Carrie Carrot:
Estimated length: \(\frac{21}{4}\)
Length in inches: ___________
Length in centimeters: \(5.7\)

Buddy Broccoli:
Estimated length: ___________
Length in inches: \(\frac{2}{5}\)
Length in centimeters: ___________

Callie Cabbage:
Estimated length: \(\frac{1}{2}\)
Length in inches: \(2.5\)
Length in centimeters: ___________
Measure the Fruits!

Estimate the length of each fruit. Then use a ruler to measure each fruit in inches AND in centimeters.

CeCe Cantaloupe:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________

Brianna Banana:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________

Maya Mango:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________

Gordon Grape:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________

Pepe Pineapple:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________

Wanda Watermelon:
Estimated length: __________
Length in inches: __________
Length in centimeters: __________
Measure the Fruits!

Estimate the length of each fruit. Then use a ruler to measure each fruit in inches AND in centimeters.

CeCe Cantaloupe:
Estimated length: ___________
Length in inches: \(\frac{2}{1\frac{1}{2}}\)
Length in centimeters: \(6.3\)

Brianna Banana:
Estimated length: ___________
Length in inches: \(4\frac{1}{8}\)
Length in centimeters: \(10.4\)

Maya Mango:
Estimated length: ___________
Length in inches: \(1\frac{3}{4}\)
Length in centimeters: \(4.3\)

Gordon Grape:
Estimated length: ___________
Length in inches: \(1\frac{1}{8}\)
Length in centimeters: \(3\)

Pepe Pineapple:
Estimated length: ___________
Length in inches: \(2\frac{7}{8}\)
Length in centimeters: \(7.4\)

Wanda Watermelon:
Estimated length: ___________
Length in inches: \(1\frac{1}{2}\)
Length in centimeters: \(3.7\)
